

**OHIO DEPARTMENT OF REHABILITATION AND CORRECTION**  
**\*\*\*\*\*INTEROFFICE MEMORANDUM\*\*\*\*\***

**TO:** Executive Staff and All Wardens

**THRU:** Dr. Maureen Black, Deputy Director  
Office of Policy

Steve Van Dine, Chief  
Bureau of Research

**FROM:** Lee Norton, Asst. Chief  
Bureau of Research

**DATE:** August 12, 2004

The Bureau of Research is pleased to release the July 1, 2003 Institutional Census for the Ohio Department of Rehabilitation and Correction. This statistical report provides information on the total adult prison population in Ohio and includes data on the age, gender and race of these prisoners, as well as on the committing county, most serious commitment offense, the felony level of that offense, and the minimum, average and maximum sentences for each felony level. The information presented in the tables is broken down by gender and pre-Senate Bill 2 vs. Senate Bill 2 commitment status of the offender.

The information presented in this report is used for departmental planning, and one of the important facets of this process is the comparison of current information with information on the same variables from prior years. We thought it would be both interesting and useful to compare the data from July 1, 2003 with that from July 1, 1998, to see what changes have occurred within that 5-year time span. Some highlights from this comparison are presented below. Following these highlights is a summary sheet of the data from the July 1, 1998 Institutional Census (see the Attachment to this cover memo). The information in that summary sheet can be compared to the data in the summary sheet (on page 1) of the July 1, 2003 Institutional Census. If the reader wants to make an even more detailed comparison of the 1998 and 2003 data, the entire 1998 Institutional Census can be found on the department's website under Bureau of Research/Census Reports.

Comparison of 1998 and 2003 Census Findings

- The total incarcerated population declined about 8%, from 49,126 in 1998 to 45,363 in 2003. Almost three-fourths of the decline came among black males, whose numbers went down by 13%, from 24,592 in 1998 to 21,438 in 2003 (a decrease of more than 3,000 inmates). There were declining numbers, as well, of black females (down 22%) and white males (down 2%). On the other hand, the number of incarcerated white females actually rose by 27%.

- The average age of the incarcerated population increased by about 13 months for males and 10 months for females. There was a notable split between the population 44 and younger, and those 45 and older. Every five year age grouping among the total population between the ages of 15 and 44 showed a decline between 1998 and 2003, whereas every five year age grouping for inmates 45 and older showed an increase. So while the population aged 15-44 decreased by 13% between 1998 and 2003, the population 45 and older increased by 23%.
- The percent of the incarcerated population committed from the six most populated counties (Cuyahoga, Franklin, Hamilton, Lucas, Montgomery and Summit) declined by 14%. Half of that decline came in Cuyahoga County (where there were 2,128 fewer commitments) and another fourth in Hamilton County (with 1,156 fewer commitments).
- Differences in the most serious conviction offense between inmates in the 1998 and 2003 populations were mixed. The largest declines were among those inmates who were committed on a property crime (down 32%) or a burglary offense (down 28%). Inmates committed on a crime against another person, excluding sex offenses, decreased by 12%, while those committed on a firearm offense declined 11%. The number of inmates committed on a drug offense remained almost unchanged, while those committed on a sex offense went up by 14%.
- Finally, the number of inmates in the population who were committed for driving under the influence more than quadrupled (from 55 to 255) between 1998 and 2003, due to the enactment of a felony DUI law in late 1996 and the expansion of felony penalties under that law in 2000.
- As expected, the number of inmates committed on a pre-Senate Bill 2 offense continues to decline. While they comprised almost three-fourths (74%) of the population in 1998, they made up less than one-third (31%) of the population in 2003.

Attachment to August 12, 2004 Cover Memo:
