Steve Van Dine, Chief

Bureau of Research Author
R. Jay Foos

Acknowledgements

The Bureau of Research would like to thank the Parole and Probation Officers of the Ohio Adult Parole Authority for their assistance in compiling the information needed to complete the 1998 Census Report. A special note of thanks goes to Kay Webster for entering the majority of the information into the database created for this large project.

State of Ohio Department of Rehabilitation and Correction
Parole and Probation Census Report, January 1, 1998

Introduction

The 1998 Census Report provides a detailed breakdown of all offenders under the supervision of the Adult Parole Authority on January 1, 1998. More specifically, information on Ohio's community supervision populations for all Parole Regions and their respective Units is examined separately by the type of supervision, classification level, gender, race/ethnicity, felony level and offense category for all 17,904 offenders under state supervision at the beginning of calendar year 1998.

The Adult Parole Authority currently distributes a monthly agency report which details the number of offenders by different supervision types and the number of offenders supervised under each classification level. However, this monthly report does not detail the percentage of offenders being supervised by a particular classification level for each of the release types. The current framework for producing the agency report on a monthly basis does not allow for the inclusion of basic demographic information on offenders, nor does it provide the detail for each supervision type as presented in this report. It should be noted that the totals on the census report do not match those on the December 1997 Agency Report. The differences in totals were noted across all regions, and do not appear to be significant for any particular category or region.

This report provides specific information on the total population and each supervision type. Additional detail is provided for four large supervision types: Regular Parole, Regular Probation, Compact Parole and Compact Probation. Two supervision types based on Senate Bill 2, Community Control (CC, similar to old probation) and Post Release Control (PRC, similar to old parole) were not summarized in detail. Being new, these two types were changing their profiles daily; a summary on 1/1/98 would be minimally useful to any current or past comparison. If anyone is interested in a special issue regarding CC or PRC on 1/1/98, please contact us and we can check the database.

Senate Bill 2 also complicates the felony level tables. It is likely that Felony 5 offenders, new under Senate Bill 2 and still few in this table, will grow greatly in the next census.

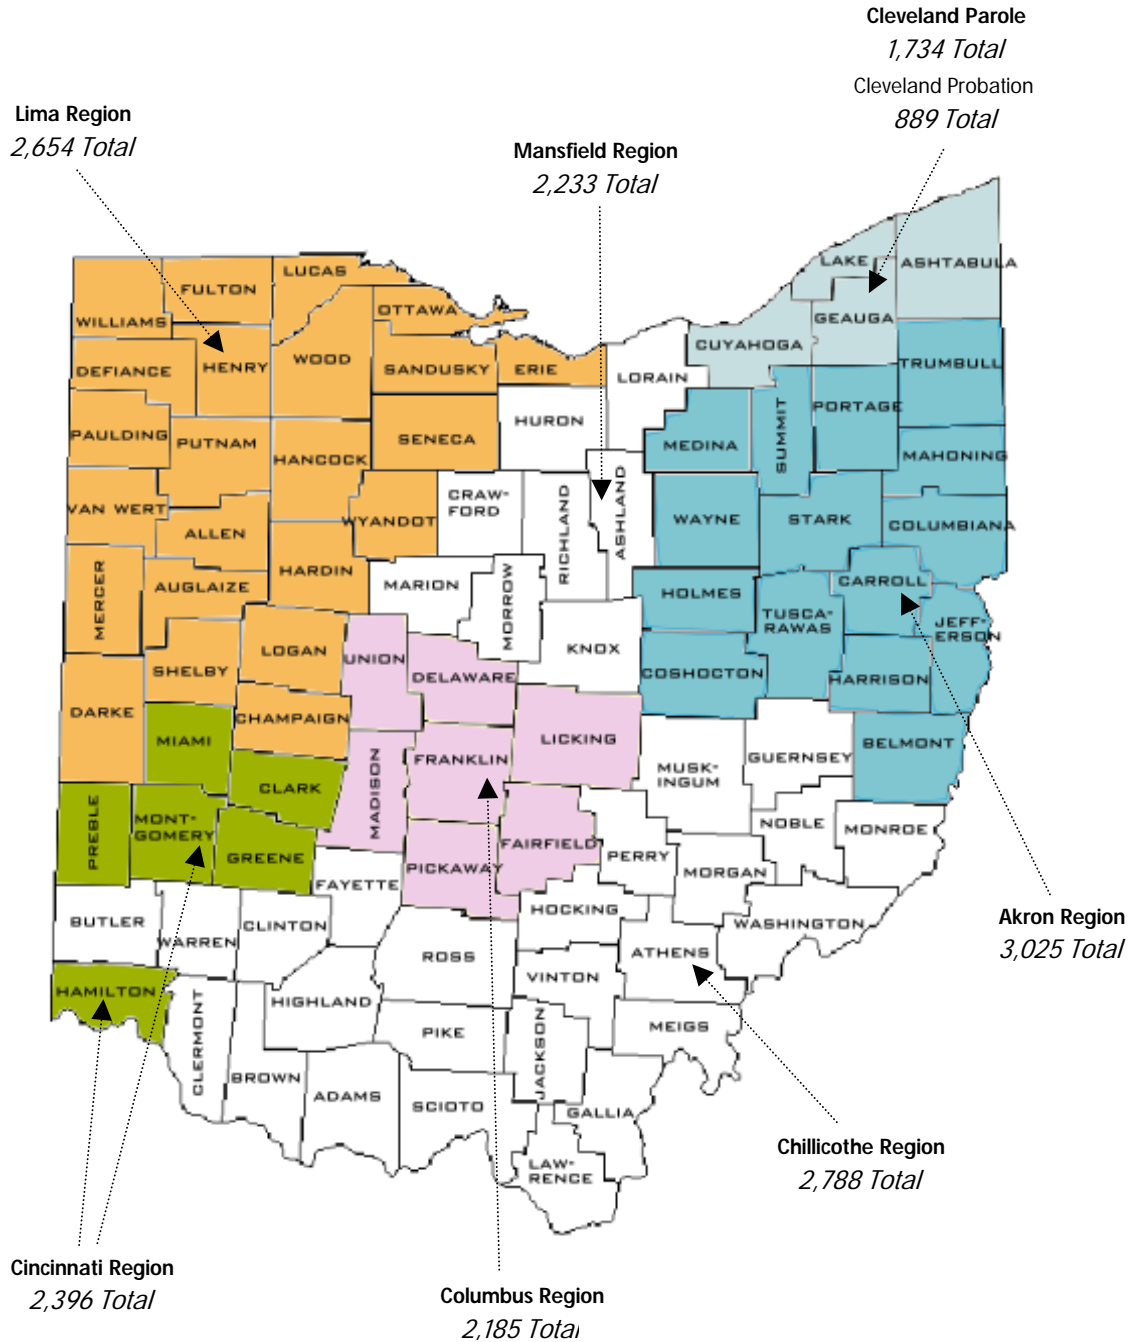

Methodology

Information sheets were mailed to the parole officers in the seven parole regions and the Cleveland probation office. Each officer with an assigned caseload on 12/31/97 provided the name, ID number, supervision type, classification level, date of birth, offense, felony level, county of sentencing and county of residence on each offender on their caseload that day.

This information was then sent back to the Bureau of Research, where it was entered in a database created to produce this report. Approximately 390 officers in 60 APA units submitted caseload data.

STATE OF OHIO

Adult Parole Authority Regions, January 1, 1998

Total Supervised: 17,904

Figure 1. Supervision by Region

Akron Region had the greatest number of offenders under supervision on 1/1/98, with 3,025 or 16.9% of the total population. Chillicothe followed with 15.6%, Lima 14.8%, Cincinnati 13.4%, Mansfield 12.5%, Columbus 12.2%, Cleveland Parole 9.7% and Cleveland Probation 5%.

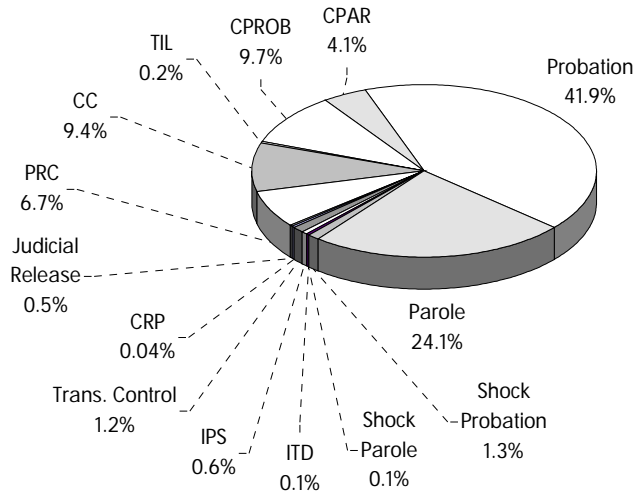

Figure 2. Supervision Type

Regular Probation accounted for the highest percentage of offenders under supervision (41.9%), followed by Regular Parole (24.1%), Compact Probation (9.7%), CC or Community Control (9.4%), PRC or Post Release Control (6.7%) and Compact Parole (4.1%). The remaining forms of supervision accounted for approximately 4.1% of those supervised. See codes on page 2.

Figure 3. Classification Level

Using supervision levels from 1/1/98, 8,076 (45.1%) of all offenders were being supervised at a Basic Medium level, and nearly equal numbers being supervised at Basic Low (24%) and Basic High (20.1%). Intensive supervision accounted for 1,800 or 10.1%. There were 100 (0.6%) offenders classified as New that had not yet been classified, and 21 (0.1%) on Monitored Time.

Figure 4. Gender

A breakdown of the supervision population shows that 14,496 (81%) were male offenders, while 3,403 (19%) were females.

Total Population on Supervision January 1, 1998

Total Supervised: 17,904

Figure 5. Felony Level

The most common felony level represented in the supervision population was Felony 4 (40.8%), followed, in descending order, by Felony 3 (21.6%), Felony 2 (16.8%), Felony 5 (8.7%), Felony 1 (7.5%), Misdemeanants (3.7%) and offenders having committed Murder (3.7%).

Figure 6. Race/Ethnicity

A breakdown of the total supervised population shows that 63.4% were White, 34.0% Black, 2.4% Hispanic, 0.1% Asian and 0.1% categorized as Other.

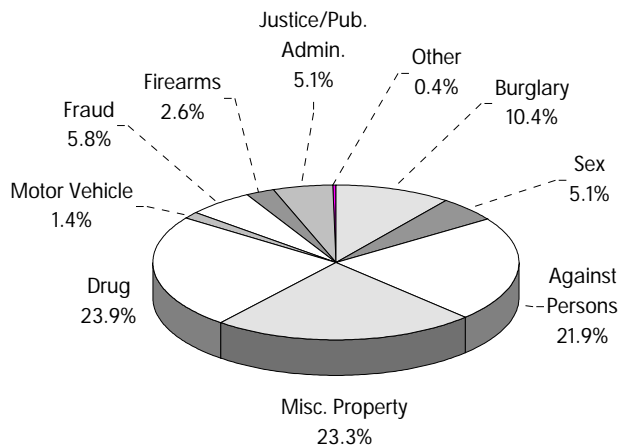

Figure 7. Offense Category

According to the pie chart on the right, Drug Offenses accounted for 23.9% of all offenders on supervision. Miscellaneous Property Offenses (23.3%), Offenses Against Persons (21.9%), Burglary (10.4%), Fraud (5.8%) and Sex Offenses (5.1%) followed in descending order.

Figure 8. Supervision by Region

Cleveland Parole had the greatest number of offenders under supervision on 1/1/98, with 1,112 or 25.8% of the total population. Cincinnati followed with 24.3%, Columbus 15.9%, Akron 12%, Lima 9.4%, Mansfield 5.7% and Chillicothe 5.9%.

Figure 9. Classification Level

According to the figure on the left, 8.8% (380) of offenders were being supervised at Basic Low, 43.9% (1,894) at Basic Medium, 37% (1,597) at Basic High and 9.7% (418) were on Intensive supervision. In addition, there were 2 on Monitored Time and 27 classified as New.

Figure 10. Gender

A breakdown of the parole population shows that 3,988 (92.4%) were male offenders, while 330 (7.6%) were females.

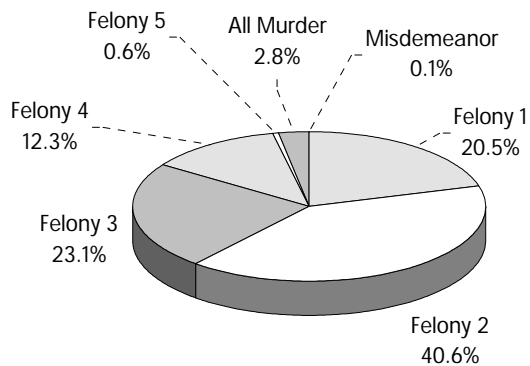

Figure 11. Felony Level

The most common felony level represented in the regular parole population was Felony 2 (40.6%), followed, in descending order, by Felony 3 (23.1%), Felony 1 (20.5%), Felony 4 (12.3%), offenders committing Murder (2.8%), Felony 5 (0.6%), and Misdemeanants (0.1%).

Total Supervised: 4,318

Figure 12. Race/Ethnicity

A breakdown of the regular parole population shows that 60.4% were Black, 37.6% White, 1.9% Hispanic, 0.1% Asian and 0.1% categorized as Other.

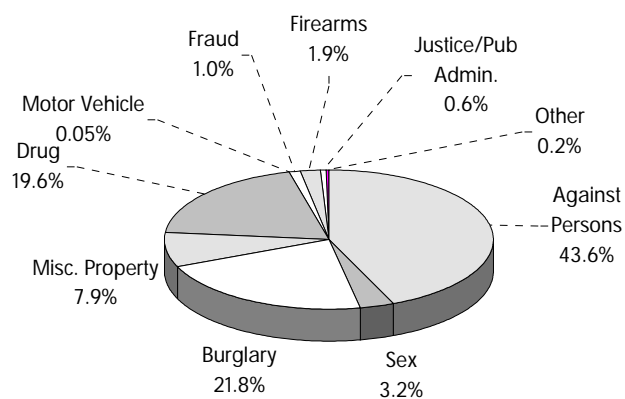

Figure 13. Offense Category

According to the pie chart on the left, Offenses Against Persons accounted for 43.6% of those being supervised. Burglary (21.8%), Drug Offenses (19.6%), Misc. Property Offenses (7.9%) and Sex Offenses (3.2%) followed in descending order.

Figure 14. Supervision by Region

Chillicothe had the greatest number of probationers under supervision on 1/1/98, with 1,792 or 23.9% of the total population. Mansfield followed with 19.8%, Lima 18.6%, Akron 16.7%, Columbus 10.6%, Cleveland Probation 5.6%, Cincinnati 4.8% and Cleveland Parole had none.

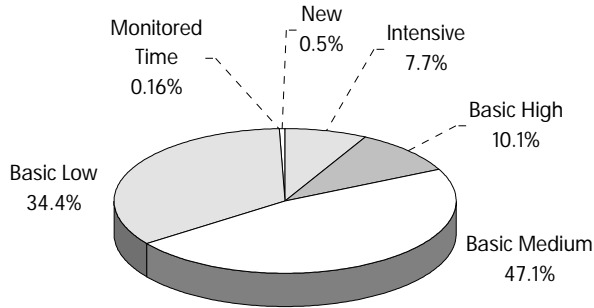

Figure 15. Classification Level

According to the figure on the left, 34.4% (2,349) of offenders were being supervised at Basic Low, 47.1% (3,218) at Basic Medium, 10.1% (690) at Basic High and 7.7% (690) were on Intensive supervision. In addition, there were 11 on Monitored Time and 32 classified as New.

Figure 16. Gender

A breakdown of the regular probation population shows that 5,456 (72.9%) were male offenders, while 2,033 (27.1%) were females.

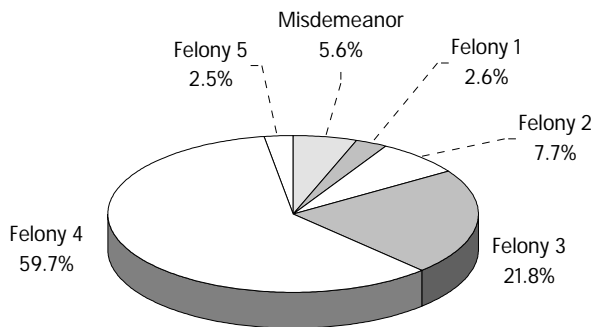

Figure 17. Felony Level

The most common felony level represented in the regular probation population was Felony 4 (59.7%), followed, in descending order, by Felony 3 (21.8%), Felony 2 (7.7%), Misdemeanor (5.6%), Felony 1 (2.6%), and Felony 5 (2.5%).

Total Supervised: 7,489

Figure 18. Race/Ethnicity

A breakdown of the regular probation population shows that 79.2% were White, 18.5% Black, 2.2% Hispanic, 0.1% Asian and 0.04% categorized as Other.

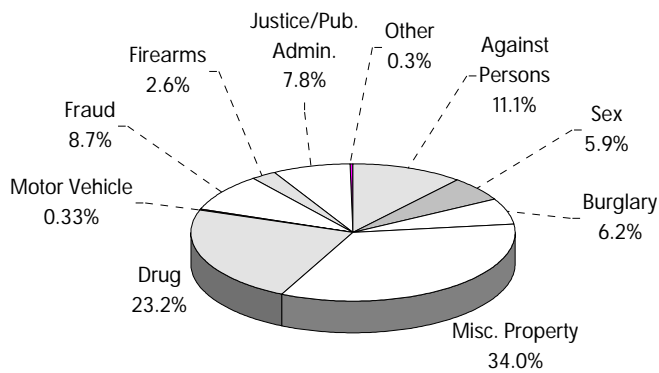

Figure 19. Offense Category

According to the pie chart on the left, Drug Offenses accounted for 23.2% of those being supervised. Misc. Property (34%), Offenses Against Persons (11.1%), Fraud (8.7%), Offenses against Justice and Public Administration (7.8%) and Burglary (6.2%) followed in descending order.

Figure 20. Supervision by Region

Cincinnati had the greatest number of offenders under supervision on 1/1/98, with 181 or 24.7% of the total population. Cleveland Parole followed with 17.8%, Akron 16.9%, Lima 11.2%, Columbus 11.1%, Chillicothe 10.4% and Cleveland Probation with 2.7%.

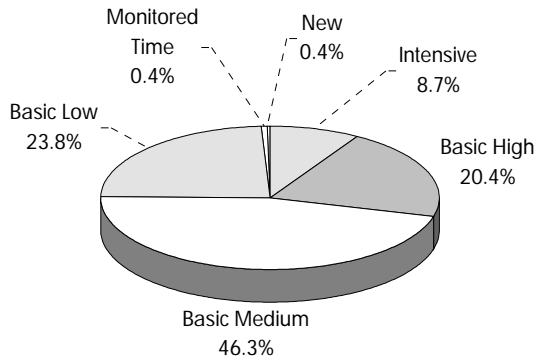

Figure 21. Classification Level

According to the figure on the left, 46.3% (339) of offenders were being supervised at Basic Medium, 23.8% (174) at Basic Low, 20.4% (149) at Basic High and 8.7% (64) at Intensive. Monitored Time and New accounted for 0.4% each.

Figure 22. Gender

A breakdown of the compact parole population shows that 649 (88.7%) were male offenders, while 83 (11.3%) were females.

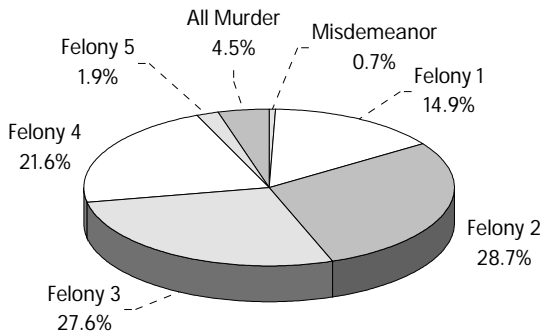

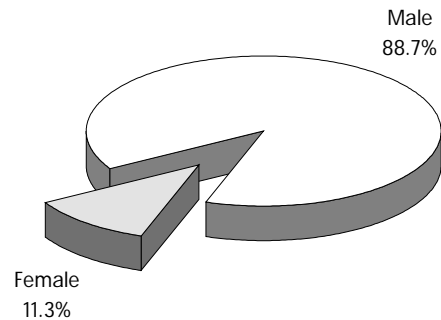

Figure 23. Felony Level

Offenses from other states were categorized to the closest Ohio felony level. The most common felony level represented in the compact parole population was Felony 2 (28.7%), followed, in descending order, by Felony 3 (27.6%), Felony 4 (21.6%), Felony 1 (14.9%), Felony 5 (1.9%) and All Murder (4.5%). Misdemeanors accounted for 0.7%.

Total Supervised: 732

Figure 24. Race/Ethnicity

A breakdown of the compact parole population shows that 53.7% (393) were White, 41.1% (301) were Black, 4.9% (36) were Hispanic and the remainder (0.28%) were either Asian or Other.

Figure 25. Offense Category

According to the pie chart on the left, Offenses Against Persons accounted for 30.6% of those being supervised on Compact Parole. Drug Offenses (29.5%), Burglary (12.7%), Misc. Property (9.2%) and Sex Offenses (6.8%) followed in descending order.

Total Supervised: 1,741

Figure 26. Supervision by Region

Cincinnati had the greatest number of offenders under supervision on 1/1/98, with 370 or 21.3% of the total population. Akron followed with 18.7%, Cleveland Probation 16%, Columbus 14.8%, Chillicothe with 13.4%, Lima 12.6%, Mansfield 3.2% and Cleveland Parole with none.

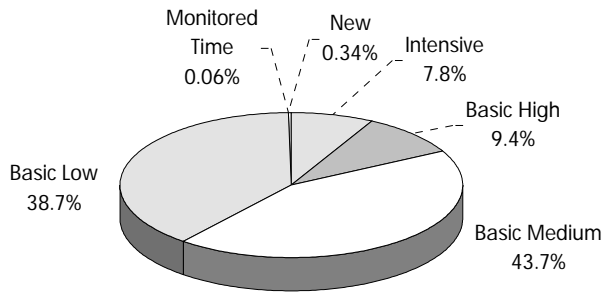

Figure 27. Classification Level

According to the figure on the left, 43.7% (761) of offenders were being supervised at Basic Medium, 38.7% (673) at Basic Low, 9.4% (164) at Basic High and 7.8% (136) at Intensive. Monitored Time and New combined accounted for 0.4%.

Figure 28. Gender

A breakdown of the compact probation population shows that 1,377 (79.1%) were male offenders, while 364 (20.9%) were females.

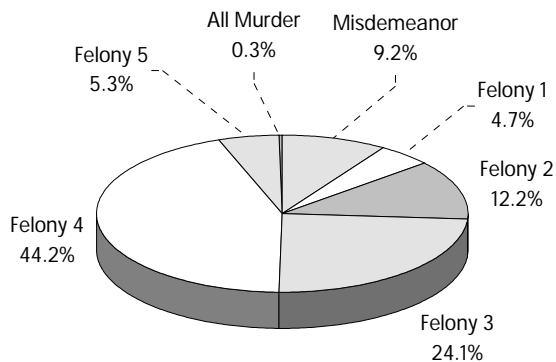

Figure 29. Felony Level

The most common felony level represented in the compact probation population was Felony 4 (44.2%), followed, in descending order, by Felony 3 (24.1%), Felony 2 (12.2%), Felony 5 (5.3%), Felony 1 (4.7%) and All Murder (0.3%). Misdemeanors accounted for 9.2%. Where the offense was from out of state, it was coded to the closest Ohio felony level.

Total Supervised: 1,741

Figure 30. Race/Ethnicity

A breakdown of the compact probation population shows that 71.9% (1,249) were White, 23.7% (411) were Black, 3.7% (65) were Hispanic and the remainder (.69%) were either Asian or Other.

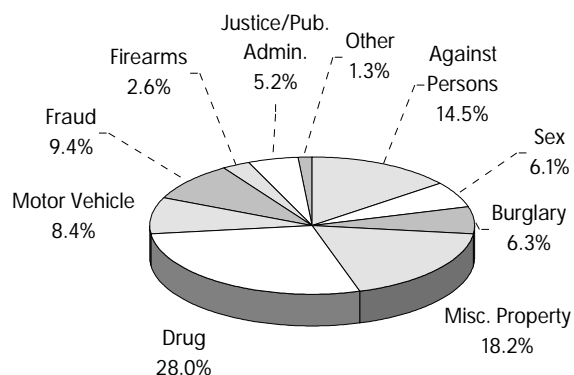

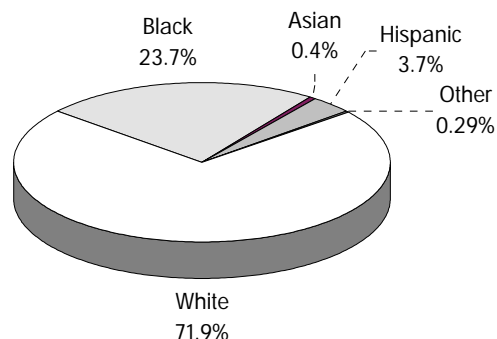

Figure 31. Offense Category

According to the pie chart on the left, Drug Offenses accounted for 28.0% of those being supervised. Misc. Property (18.2%), Offenses Against Persons (14.5%), Fraud (9.4%), Motor Vehicle (8.4%), Burglary (6.3%) and Sex Offenses (6.1%) followed in descending order.

Appendices

Appendix 1

Appendix 1 shows the percentage of offenders, by county, who are currently residing within the county of their original commitment. Data are shown only for those offenders who were originally convicted from a county within the State of Ohio. Also not included are those with missing county information. Current residence by county of commitment is shown for all supervision types and individually for the two largest supervision types, Regular Parole and Regular Probation.

According to the data, a high percentage of those supervised reside in their original county of commitment. Overall, the figure is 70.1%. Parolees (73.1%) were more likely to reside in their original county of commitment than Probationers (66.0%). All Ohio counties, except for Brown and Carroll, reported offenders residing there who had been originally committed from there. For Parolees only, there were 13 such counties, and for Probationers only, 33. The counties with the highest proportion were Gallia (100.%, but only 2 on supervision), Butler (86.9%), Stark (84.4%), Cuyahoga (84.3%) and Ashtabula (83.2%).

Appendix 2

Appendix 2 examines the relationship between an offender's county of commitment and residence while under state supervision. Specifically, the table shows the percentage of offenders residing within each Ohio county who were originally sentenced from the same county. As in Appendix 1, those convicted outside the State of Ohio and those with missing county information are not included.

Overall, less than two-thirds (60.5%) of all offenders on supervision were residing in the county of their original commitment at the time of data collection. For Parolees only, this figure was 72.9%, and for Probationers only, 66.1%. Only Carroll County reported no one residing within their county who were originally committed to DRC from their county. For Parole only, there were 13 such counties, and for Probation only, 33. The counties with the highest overall proportion were Lorain (91.3%), Delaware (89.3%), Auglaize (89.1%), Highland (85.9%) and Monroe (85.7%).

It should be noted that the Ohio Adult Parole Authority provides probation services primarily in Ohio's more rural counties. Thus, Ohio's five largest committing counties fell well below the state average for probationers residing within their original county of commitment.

Appendix 3

Appendix 3 graphically represents the percentage of offenders from each of the major offense categories (Crimes Against Persons, Sex, Burglary, Miscellaneous Property, Drug, Motor Vehicle, Fraud, Firearms and Offenses Against Justice/Public Administration) under supervision in each of Ohio's seven Parole Regions, as well as statewide, for the purpose of inter-regional comparison.

Appendix 4

Appendix 4 graphically represents the percentage of offenders being supervised at each of the supervision levels (Intensive, Basic High, Basic Medium, Basic Low, Monitored Time and New) for each of the various types of supervision available at the time the survey was conducted (Community Corrections, Compact Parole, Compact Probation, Intensive Probation Supervision, Judicial Release, Post Release Control, Regular Parole, Regular Probation, Shock Probation and Transitional Control). Although in existence at the time of the survey, Conditional Release Supervision, Intermediate Transfer Detention, Shock Parole and Treatment in Lieu of Incarceration are not represented graphically because of low totals.

Appendix 5

Appendix 5 lists all Adult Parole Authority Regions and their respective units, and whether or not a given unit has supervision and/or investigation duties.
