RE: 2019 Annual Jail Inspection

Dear Sheriff Matthew Treglia:

In accordance with Section 5120.10 of the Ohio Revised Code and Executive Order 92-03 of the Department of Rehabilitation and Correction, the Allen County Jail, a full service jail, was inspected on 10/17/2019. The inspection was restricted to assessing compliance with a group of standards, selected from the Standards for Jails in Ohio promulgated by the Department of Rehabilitation and Correction. The group of standards being inspected focused on Reception & Release, Classification, Security, Housing, Sanitation and Environmental Conditions, Communication, Visitation, Medical and Mental Health Services, Food Service, Recreation and Programming, Inmate Discipline, Administrative Segregation, Grievance, Staffing, and Staff Training. The inspection consisted of this Inspector receiving and/or reviewing requested documentation and/or materials, touring selected areas of the jail, and having discussions with various jail staff.

The total actual general housing capacity for the Allen County Jail is 216. On the date of the jail inspection, there were 263 inmates incarcerated in the Allen County Jail. The Ohio Department of Rehabilitation and Correction recommended housing capacity for the jail is 204, which is based upon total available living space and other requirements. Officials should maintain prisoner counts within the Department's recommended capacity figure.

The Allen County Jail (Full Service Jail) is in compliance with 113 standards, 52 "Essential", and 61 "Important".

The Allen County Jail did not comply with 3 standards, 1 "Essential", and 2 "Important". This letter is intended to serve as a basis for developing plans of action for bringing the facility into compliance with the deficiencies noted during the inspection.

5120:1-8-03 (A) Each full service jail shall maintain the following minimum standards in regard to security of the jail. (6) (Essential) A two-way communications system between central control, staffed posts and inmate occupied areas.

Comments: On the day of the inspection there were no two-way communication between inmate cells and the central control. The housing units do have two-way communication between central control.

5120:1-8-04 (A) (4) Full service jails shall provide inmates with sufficient space. The jail shall maintain documentation regarding square footage and maximum occupancy figures for all housing and holding areas, and shall comply with the following minimum requirements: Dayspace: (Important) Thirty-five square feet per number of occupants occupying the dayspace at one time. Minimum size of one hundred five square feet.

Comments: On the day of the inspection the jails population exceeded the Bureau Recommended Capacity, due to overpopulation.

5120:1-8-04 (G) (Important) Shower facilities at a minimum of one operable shower for every twelve occupants. Water temperatures shall be controlled thermostatically in a range from one hundred five to one hundred twenty degrees Fahrenheit.

Comments: On the day of the inspection some housing units were under the inmate to shower ratio per the standard. Jail Officials should maintain BRC to stay in compliance with standard ratios.

Plan of action forms are enclosed. Completed form(s) and/or corrective materials addressing the noted deficiencies must be completed and submitted through the Ohio Jail Management System (OHJMS) at www.OHJMS.Intelligrants.com within 45 days of receipt of this correspondence. Please feel free to contact the Bureau if you need assistance or clarification in this effort. The Bureau remains available to discuss the aspects of this report or to provide reference materials or assistance as desired.

Sincerely,
