RE: 2019 Annual Jail Inspection

Dear Sheriff David Schaffer:

In accordance with Section 5120.10 of the Ohio Revised Code and Executive Order 92-03 of the Department of Rehabilitation and Correction, the Knox County Jail, a full service jail, was inspected on 10/15/2019. The inspection was restricted to assessing compliance with a group of standards, selected from the Standards for Jails in Ohio promulgated by the Department of Rehabilitation and Correction. The group of standards being inspected focused on Reception & Release, Classification, Security, Housing, Sanitation and Environmental Conditions, Communication, Visitation, Medical and Mental Health Services, Food Service, Recreation and Programming, Inmate Discipline, Administrative Segregation, Grievance, Staffing, and Staff Training. The inspection consisted of this Inspector receiving and/or reviewing requested documentation and/or materials, touring selected areas of the jail, and having discussions with various jail staff.

The total actual general housing capacity for the Knox County Jail is 100. On the date of the jail inspection, there were 86 inmates incarcerated in the Knox County Jail. The Ohio Department of Rehabilitation and Correction recommended housing capacity for the jail is 100, which is based upon total available living space and other requirements. Officials should maintain prisoner counts within the Department's recommended capacity figure .

The Knox County Jail (Full Service Jail) is in compliance with 113 standards, 51 "Essential", and 62 "Important".

The Knox County Jail did not comply with 2 standards, 1 "Essential", and 1 "Important". This letter is intended to serve as a basis for developing plans of action for bringing the facility into compliance with the deficiencies noted during the inspection.

5120:1-8-02 (B) (2) (Important) Each full service jail shall have written policies and procedures, and practices which evidence, compliance with the following standards: Violent and non-violent inmates are not placed in the same cell or unsupervised areas together.

Comments: On the day of inspection the Jail administration advised that they classify and separate inmates based on current behavior not on past or current charges, or previous history. The Jails procedures and practices need updated to reflect this standard and components specified.

5120:1-8-09 (D) (Essential) Health appraisal. Within fourteen days, a licensed nurse, physician, physician's assistant, EMT or paramedic shall complete a health appraisal to determine the medical and mental health condition for each inmate in custody. Such appraisal shall at least include the following:

- (1) Review of receiving screen.
- (2) Collection of additional data to complete the medical, dental and mental health history.
- (3) Laboratory and/or diagnostic tests to detect tuberculosis and other suspected communicable diseases as designated by the health authority.
- (4) Recording the height, weight, pulse, blood pressure and temperature.
- (5) Medical examination as determined by the examiner.
- (6) Mental health assessment.
- (7) Initiation of therapy when determined necessary by the examiner.
- (8) Development and implementation of a treatment plan.
- (9) Other test and examination as determined by the examiner or health authority.

Comments: On the day of inspection, several random files were reviewed. These revealed the jail had not completed health assessments within the time requirement for this standard.

Plan of action forms are enclosed. Completed form(s) and/or corrective materials addressing the noted deficiencies must be completed and submitted through the Ohio Jail Management System (OHJMS) at www.OHJMS.Intelligrants.com within 45 days of receipt of this correspondence. Please feel free to contact the Bureau if you need assistance or clarification in this effort. The Bureau remains available to discuss the aspects of this report or to provide reference materials or assistance as desired.

Sincerely,
