RE: 2019 Annual Jail Inspection

Dear Sheriff Michael Simpson:

In accordance with Section 5120.10 of the Ohio Revised Code and Executive Order 92-03 of the Department of Rehabilitation and Correction, the Preble County Jail, a full service jail, was inspected on 09/30/2019. The inspection was restricted to assessing compliance with a group of standards, selected from the Standards for Jails in Ohio promulgated by the Department of Rehabilitation and Correction. The group of standards being inspected focused on Reception & Release, Classification, Security, Housing, Sanitation and Environmental Conditions, Communication, Visitation, Medical and Mental Health Services, Food Service, Recreation and Programming, Inmate Discipline, Administrative Segregation, Grievance, Staffing, and Staff Training. The inspection consisted of this Inspector receiving and/or reviewing requested documentation and/or materials, touring selected areas of the jail, and having discussions with various jail staff.

The total actual general housing capacity for the Preble County Jail is 70. On the date of the jail inspection, there were 60 inmates incarcerated in the Preble County Jail. The Ohio Department of Rehabilitation and Correction recommended housing capacity for the jail is 70, which is based upon total available living space and other requirements. Officials should maintain prisoner counts within the Department's recommended capacity figure .

The Preble County Jail (Full Service Jail) is in compliance with 112 standards, 50 "Essential", and 62 "Important".

The Preble County Jail did not comply with 3 standards, 3 "Essential", and 0 "Important". This letter is intended to serve as a basis for developing plans of action for bringing the facility into compliance with the deficiencies noted during the inspection.

5120:1-8-03 (B) Each full service jail shall have written policies and procedures, and practices which evidence, that the following minimum standards are maintained. (9) (Essential) Inmates in physical restraints shall be personally checked by staff every ten minutes. The report of the use of physical restraints shall be reviewed and signed off by a non involved supervisor or higher ranking personnel. The use of physical restraints shall be reviewed for policy compliance by the jail administrator or designee.

Comments: On the day of the inspection the wrong policy was provided, first 10 minute check was over by 6 minutes and no supervisor sign off was demonstrated. Jail official should provide the correct policy, download more examples of 10 minute checks to review for verification and download examples of where the non involved supervisor signed off on the report/ approval.

5120:1-8-09 (D) (Essential) Health appraisal. Within fourteen days, a licensed nurse, physician, physician's assistant, EMT or paramedic shall complete a health appraisal to determine the medical and mental health condition for each inmate in custody. Such appraisal shall at least include the following:

- (1) Review of receiving screen.
- (2) Collection of additional data to complete the medical, dental and mental health history.
- (3) Laboratory and/or diagnostic tests to detect tuberculosis and other suspected communicable diseases as designated by the health authority.
- (4) Recording the height, weight, pulse, blood pressure and temperature.
- (5) Medical examination as determined by the examiner.
- (6) Mental health assessment.
- (7) Initiation of therapy when determined necessary by the examiner.
- (8) Development and implementation of a treatment plan.
- (9) Other test and examination as determined by the examiner or health authority.

Comments: On the day of the inspection not all inmates received TB tests by the 14 day health appraisal. Jail officials should make sure all inmates are TB tested every time they are booked into the jail on or before the 14 day health appraisal.

5120:1-8-09 (R) (Essential) Restraints. Use of restraints for medical and psychiatric purposes shall be applied in accordance with policies and procedures approved by the health authority, including:

- (1) Conditions under which restraints may be applied.
- (2) Types of restraints to be applied.
- (3) Identification of a qualified medical or mental health professional who may authorize the use of restraints after reaching the conclusion that less intrusive measures are not a viable alternative.
- (4) Monitoring procedures.
- (5) Length of time restraints are to be applied.
 - (a) There shall be ten-minute, varied checks by correctional staff;
 - (b) There shall be thirty-minute checks by health-trained personnel;
 - (c) Inmates in medical restraints, if possible, after every two hours of continuous use, each extremity is freed or exercised for a period of five to ten minutes.
- (6) Documentation of efforts for less restrictive treatment alternatives.
- (7) An after-incident review.

Comments: On the day of the inspection, ten minute checks were missed multiple times on the supporting documentation provided by jail official's. Jail official's should make sure inmate checks are completed by staff members within the appropriate allotted times.

Plan of action forms are enclosed. Completed form(s) and/or corrective materials addressing the noted deficiencies must be completed and submitted through the Ohio Jail Management System (OHJMS) at www.OHJMS.Intelligrants.com within 45 days of receipt of this correspondence. Please feel free to contact the Bureau if you need assistance or clarification in this effort.
