1. What do you need or want from the ODRC?

In essence, in answering this question, we can determine what it is you are seeking from DRC. It could be that you are seeking assistance from DRC to implement a reentry program within the prison(s) or you are requesting DRC to purchase a program you have developed. These are examples of requests DRC has received before and may not necessarily be what you need or want from DRC in terms of your program. Please be as specific and as brief as possible. Your identified need will ensure that an appropriate response is provided.

2. Frequency of Reentry Program

In the form's header section, you indicated the areas served by your program or each location (prison) you wish to implement your program. In this section, please provide information on how your program is implemented. It could be that this is an ongoing program or a program that will be offered once.

In this section, please indicate the fee or cost of your program.

If no category appropriately defines your program, please check the "other" box and define your program in the space provided.

3. Response Date

Provide a date by which you need a response. As your request may be reviewed by several departments within DRC, it will typically take no longer than 60 days to receive a reply to your request. In some circumstances the response time may be shortened. If your request is time sensitive, please state the reason a quicker response is necessary and attempts will be made to accommodate your request. If a response is not feasible within the requested time frame, the contact person will be notified.

4. Summary/Profile of the Reentry Program Checklist

For this section you will need to attach a typed, detailed summary/profile of your program. A checklist is provided to assist you in determining what information is necessary to include in your summary. Please be as specific as possible, refer only to the current request and do not include information that is not relevant to your request or the program. The checklist is grouped in two categories – information pertaining to the program itself and information pertaining to the agency or provider of the program.
