

# VIDEO IN-REACH

The goal of the video in-reach is to connect resource providers with offenders preparing to return to the community from prison prior to release. The program leverages existing technologies and provides the opportunity for a direct connection for our incarcerated population with those key habilitation service providers that will make their transition to the community more successful. The expansion of video in-reach program opportunities are consistent with our goal to develop resources to meet the needs of our inmate population and support institution staff in their effort to prepare individuals for release. Institutions in all four regions are involved with providing offenders and staff with access to community resource providers through the initiative. The majority of providers are associated with local reentry coalitions, and thus uniquely prepared to respond to questions and concerns of individuals preparing to be released back into the local communities across the state. DRC reentry staff and staff from the APA are actively engaged in the program.

For more information about the video in-reach, please contact the Office of Reentry at [DRC.OfficeOfReentry@odrc.state.oh.us](mailto:DRC.OfficeOfReentry@odrc.state.oh.us).
